## The secret is out — and our new actions are going to be *big*.

We're going so big that we can't even tell you the full plan, but know this — Just Stop Oil will be taking our most radical action yet this summer. We'll be taking action at sites of key importance to the fossil fuel industry; **super-polluting airports**.

*Ordinary people taking action at airports across Europe*

## Governments promised to stop heating at 1.5°C. They've now failed us all.

In 2016, leaders came together and promised to keep heating under 1.5°C as part of the Paris Agreement. Past that our government knows we risk heating spiralling out of control — escalating fires, floods, storms and food shortages.

**Last year, heating smashed through to 1.52°C above the pre-industrial average.** Sunak's response? Silence. In January 2024 we reached 1.66°C of heating. We are facing a worst-case scenario and our governments are in a state of fear and denial. It's time to turn up the pressure. **We're going to resist this carbon regime with all we've got.**

...to support the protesters going to resist the new oil and gas...

## You've heard the plan. Now let's make sure everyone in the UK knows it.

To pull this off, we need to mobilise people across the country. Over 80% of people in the UK are concerned about the climate crisis and in the last year, thousands of people have taken part in radical action. We can do this. But we need proper funding to make it happen.

**We need to raise £50,000 in the next month to fund our biggest push yet.** With your help, we'll hold meetings up and down the country, explaining our plan, building teams and getting people prepared for action.

Here's how your support could make a difference:

- 👉 — **£25** could pay for a bus or train ticket for a young person to attend a meeting
- 👉 — **£50** could buy a stack of posters to spread the word.
- 👉 — **£100** could help put on a soup night to build community for people taking action.
- 👉 — **£500** could rent a hall for a talk near you
- 👉 — **£1000** could pay for a powerful combination of all these things, empowering ordinary people to take action against our criminal government.

## We have to do this. Now.

Just Stop Oil are demanding an end to the licensing of new oil and gas projects in the UK — this is the basic first step of any government serious about dealing with the climate crisis. The International Energy Agency (IEA) has said there must be no new investment in new gas, oil or coal extraction projects from now on if we have any chance of avoiding catastrophic heating.

**We won't be the first.** France, Italy, Denmark, Sweden, Portugal, Costa Rica, Ireland and Wales have already made commitments to end the licensing of oil and gas. But that good work is undone when our Prime Minister vows to “max out” oil and gas in the North Sea.

The UK is second only to Norway as Europe's biggest fossil fuel producer (or should we say, carbon polluter). What we achieve here *will* echo across the globe. We have to stop new oil and gas.

## We know direct action makes the difference.

At home, every major political party – except the Conservatives — has promised to stop licensing new projects. Media debate over oil and gas licensing is through the roof. An ex-government minister resigned as an MP in protest against new licences. We've proven we can hold the spotlight on our leaders if we keep up the pressure.

**And we've done the groundwork.** Public facing action throughout 2023 has built Just Stop Oil into the UK's biggest radical action group. **What we need now is the time and funds for a campaign that will hit polluters hard.**
